

To whom it may concern,
I benefit greatly from XM Radio and content it provides, ESPECIALLY the weather and traffic reports. Radio stations in my area have never been able to accurately provide this information when I need to have it at various times of the day. The regular radio broadcasters only provide it on THEIR schedule, not mine. XM provides me with information that can't be provided by local radio stations. I urge you to reject NAB's petition 04-160. If the regular broadcasters cannot provide the services, then XM should be allowed to. It's their right to provide ME with services that I PAY for.
